Portfolio

Summary

Enthusiastic Web Developer and Integrated MCA candidate with hands-on experience in building responsive web applications using HTML, CSS, JavaScript, React, and Node.js. Strong understanding of frontend design principles and backend fundamentals, with additional exposure to cybersecurity concepts. Passionate about creating efficient, scalable, and user-focused digital solutions through continuous learning and practical project development.

Education

Parul Institute of Computer Application (PICA)

Integrated Master of Computer Application (IMCA)

Vadodara, India

2022 – 2026

Technical Skills

Languages: HTML5, CSS3, JavaScript (ES6+), Python, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, MongoDB

Tools & Platforms: Git, GitHub, Linux, VS Code

Projects

Quick Bite Food Delivery — MERN Stack, Tailwind CSS

2024

- Built a full-stack food delivery application allowing users to browse 50+ restaurants and track orders.
- Implemented secure user authentication and an admin dashboard for efficient order management.
- Utilized MongoDB aggregations to handle complex data queries for menu items and user order history.

Smart Society Management System — Web Application

- Designed and developed a digital platform to manage residential societies, including communication, visitor tracking, and event scheduling.
- Improved community coordination through modular architecture and responsive UI design.

Courier Management System — Web Application

- Built an application to automate parcel booking, tracking, and delivery management.
- Implemented structured workflows to enhance operational efficiency and real-time tracking.

Image Encryption & Decryption System — Python, Linux

- Developed a secure image encryption system using password-based key derivation techniques.
- Created a command-line interface supporting batch image encryption and decryption.

Face Recognition System — Python

- Implemented a biometric system to identify and verify individuals using facial feature analysis.

Certifications

- Data Visualisation: Empowering Business with Insights — Tata (Forage)
- Machine Learning Expert: MATLAB — Simplilearn
- GenAI Powered Data Analytics Job Simulation — TATA (Forage)
- Cybersecurity Analyst — TATA (Forage)

Experience

Cybersecurity Intern — Shadow Fox

Dec 2024

- Gained practical exposure to ethical hacking fundamentals and vulnerability assessment.
- Worked with basic cybersecurity tools and real-world security case studies.

Cybersecurity Intern — Pinnacle Labs

Nov 2024

- Learned core cybersecurity principles including system security and threat analysis.
- Analyzed real-life attack scenarios and cybersecurity best practices.
